**HIGHWAY PROGRAM SUMMARY
ILLINOIS DEPARTMENT OF TRANSPORTATION
DISTRICT 8, COLLINSVILLE**

Overview

Highway District 8 encompasses 10 counties in southwestern Illinois and includes the cities of East St. Louis, Alton, Belleville, Edwardsville, Jerseyville, Highland, Greenville, Mascoutah and Chester, plus many smaller communities which serve as satellites for the larger employment centers. The state highway system in District 8 consists of 1,650 miles of highways and 866 bridges, supporting 14.9 million vehicle miles of travel daily.

State Program

The program for state and local highways will average \$1.186 billion annually for the FY 2005-2011 period. Approximately \$700 million will be provided during FY 2005-2011 for improvements to state highways in District 8. The following table summarizes anticipated accomplishments on the state highway system in District 8 during this time frame.

FY 2005-2011 Accomplishments

Interstate Rehabilitation (miles)	21
Interstate Bridges (number)	22
Other Bridge Rehab/Replace (number)	58
Resurfacing/Widening (miles)	72
Major Highway Construction (miles)	34
Traffic/Safety Improvements (locations)	99

Major projects of interest that are tentatively scheduled during the FY 2005-2011 time frame include:

- **Interstate 55/70 Poplar Street Complex in East St. Louis.** Bridge repair, bridge deck overlay and seismic retrofit of the Tudor/Piggot Ramps are programmed during FY 2006-2011 at a cost of \$26.3 million. In addition, bridge painting and new deck are programmed during FY 2005-2011 at a cost of \$7.3 million for the Poplar Street Bridge. Of this total, \$3.3 million is programmed in FY 2005 for bridge painting.
- **Interstate 64/55/70 Interchange (Tri-Level) in East St. Louis.** Reconstruction of the interchange at the three interstate routes is necessary to improve traffic operational conditions and provide access to the local street system. Construction and associated work are programmed during FY 2005-2011 at a cost of \$109.5 million, including \$9.4 million of improvements on the Interstate 64 Connector. Of this total, engineering for contract plans is programmed in FY 2005 at a cost of \$115,000.
- **US 67 from Godfrey to Jerseyville in Madison and Jersey Counties.** Utility adjustments and construction of 11.3 miles of new four-lane pavement are programmed during FY 2006-2011 at a cost of \$84.3 million. TEA-21 provided \$12.2 million in High Priority Project funds for this project.
- **Illinois 3 relocation from Cahokia to Venice.** Engineering for the relocation along the East St. Louis riverfront is in progress. The remaining land acquisition, Cahokia Canal relocation and construction of 3.8 miles of relocation from the north connection in Venice to River Park Drive in East St. Louis are programmed during FY 2005-2011 at a cost of \$89.9 million. Of this total land acquisition is programmed in FY 2005 at a cost of \$1.9 million.
- **Illinois 15 from Green Mount Road southeast of Belleville to Illinois 13 in Freeburg.** Construction of additional lanes for 3.5 miles is programmed in FY 2005 at a cost of \$13.1 million.
- **Illinois 162 from west of Formosa Road to US 40 in Troy.** Construction of additional lanes and resurfacing on 4.4 miles are programmed in FY 2005 at a cost of \$5.3 million.

- **Alton Bypass from Illinois 143 to US 67 in Godfrey.** Construction of the four-lane Alton Bypass from Interstate 270 to US 67 in Godfrey is in progress. The segment from Interstate 270 to Illinois 143 is open to traffic. Construction on the 7.2-mile segment from Illinois 143 to Fosterburg Road is under way. Lighting for the segment from Illinois 143 to Fosterburg Road, completion of contract plans and construction of the remaining 6.1 miles of mainline pavement and 1.7 miles of construction on cross streets from Fosterburg Road to US 67 in Godfrey are programmed during FY 2005-2011 at a cost of \$61.8 million. Of this total, \$100,000 is programmed in FY 2005 for completion of contract plans.
- **East St. Louis, Illinois and St. Louis, Missouri: New Mississippi River Bridge (NMRB).** Engineering for location, design and environmental studies for a new bridge connecting East St. Louis and the central business district in St. Louis, Missouri is complete. This engineering was initiated in FY 1992 with Illinois as the lead agency and Missouri sharing in the costs.

Land acquisition and engineering for contract plans are under way. Missouri and Illinois are sharing the engineering costs for contract plans. ISTEPA included \$2.3 million in federal demonstration funds for this project. TEA-21 has provided \$1.1 million in High Priority Project funds for this project. The construction of this project is currently unfunded and will require special federal funding over and above regular program funds.

The location of the New Mississippi River Bridge is being coordinated with the relocation of Illinois 3 from Venice to Sauget/Cahokia and the Interstates 55/64/70 Tri-Level reconstruction in East St. Louis.

- **McKinley Bridge over the Mississippi River at Venice.** Rehabilitation of the bridge and demolition of the Venice Highline railroad trestle is programmed in FY 2005-2011 at a cost of \$42.0 million. Of this total, \$39.5 million is programmed in FY 2005 for rehabilitation of the bridge. TEA-21 has provided \$4 million in High Priority Project funds for this project.

This project is contingent upon special state legislation transferring jurisdiction of the bridge to the state of Illinois, local funding participation and the retirement of outstanding bonds.
